PROJECTS

ONLINE SHOPPING WEBSITE - GAME SHOP [Game Shop GitHub](#)

An e-commerce web application where users can browse game-related products, view categories, add items to a cart, and complete purchases using bank account details. Admins can manage products, categories, and user feedback efficiently.

- **Technologies:** ASP.NET Web Forms, MSSQL, HTML, CSS, Bootstrap.
- **Key Features:** Admin can manage products and categories; users can browse, buy products, and send feedback. Includes cart and billing system.

SOCIAL MEDIA WEBSITE - SPORTS CLUB [Sports Club GitHub](#)

Sports Club is a social media website where users can post sports related content, follow others, and message them. This platform serves as a dedicated sports hub and was my final year college project .

- **Technologies:** Node.js, Express, MongoDB, HTML, CSS, JavaScript, Bootstrap and Git.
- **Key Features:** User registration, post creation, messaging, following.

PORTFOLIO WEBSITE [Portfolio Live](#) [Portfolio GitHub](#)

Developed a personal portfolio website to showcase my skills, projects, and achievements.

- **Technologies:** HTML, CSS, Bootstrap, JavaScript and Git.

CERTIFICATES & ACHIEVEMENTS

- **INDUSTRIAL VISIT (ZEPHYR):** DATA SCIENCE. ARTIFICIAL INTELLIGENCE & MACHINE LEARNING UNIT.
- **CAPTURE THE FLAG:** COORDINATED A CYBER SECURITY COMPETITION IN COLLEGE.
- **WEB PAGE DESIGNING:** WON SUB-DISTRICT LEVEL COMPETITION (10TH STANDARD).
